IT MEETS WITH PROTESTS.

Proposed Removal of Duty From Sugar, Tobacco, Etc.

BE UNWISE AND DISASTROUS

The Opposition in Florida Has Taken Organized Shape—Other Washington News Items.

Special to the TELEGRAM.

Washington, Dec. 28—The proposed legislation of congress, removing the duty from sugar, tobacco and tropical fruits from Cuba and Porto Rico is causing much anxiety on the part of southern agriculturists. Numerous protests have been received in Washington from individual sources by the congressmen representing southern constituencies. These protests come principally from Florida fruit growers, who claim that if the proposed legislation is enacted that it will cause the ruin of the Florida fruit business. The protests come, however, also from tobacco growers, sugar planters and others, and have not been confined to the gulf states alone. Tobacco growers in North and South Carolina are also protesting against the passage of such a bill.

In Florida, and other gulf states, the movement against the proposed legislation has taken more of an organized shape, and in these states, especially in Florida, conventions are to be held for the purpose of organizing immediately for an earnest campaign against the passage of the proposed bill. It is likely that delegations will be sent to Washington from Florida for the purpose of appealing to the president and to congressmen to use their efforts to defeat such legislation, in the event that it takes any shape in congress.

Among southern congressman, outside of the Florida delegation there is almost unanimity of sentiment that it would be unwise and a disastrous step, for congress at this time to admit free of duty such staples as sugar, tobacco and tropical fruits from Cuba and Porto Rico. It is argued that free trade in these staples with our new possessions to the south, if it comes at all, should come gradually, and not in such a manner as might work ruin to southern trade.

Southern members of the house of representatives, as a rule, do not believe that the president's recommendations in this particular will be carried into effect, at least during the present session of congress. They say that a measure for free trade between the colonies and the United States might possibly pass the house of representatives, but that there is a disposition on the part of the senators to avoid upsetting business by tariff legislation as far as possible at this time.

Among prominent southern men in Washington during the Christmas holidays is Hon. Josephus Daniels, of Raleigh, N. C., the well known editor of the Raleigh News & Observer. Mr. Daniels, in speaking of the political situation in North Carolina, stated that he has no doubt in his own mind of the adoption of the proposed constitutional amendment limiting negro suffrage in the state.

In regard to the senatorial situation in the Old North State, Mr. Daniels expressed the opinion that there will be a Democratic senator for the next six years. There are four prominent candidates, he says, to succeed Senator Butler in the United States senate. They are ex-Governor Jarvis, ex-Representative Simmons, ex-Representative Waddell and Hon. Julian S. Carr. Mr. Daniels himself has been prominently mentioned for the place, but he is not an active aspirant.

Representative Swanson, of Virginia, has been appointed a member of the sub-committee of the ways and means committees which will deal with the reciprocity treaties as they come to the house of representatives for action. This is regarded as a very important committee, and is an excellent assignment for Swanson, who is one of the popular members of the Virginia delegation.

The first snow of the season began falling in Washington yesterday afternoon. As the weather has been very cold since Christmas, the snow lay as fast as it fell, much to the delight of the juvenile portion of the population, who wanted an opportunity to try their sleds.

General Edgar Allan, of Virginia, has been here for a day or two. He says that the Virginia delegation in the next national convention will be for the renomination of President McKinley.

Among North Carolina people in Washington are William J. Holt, of Burlington, and George Smallworth, of Raleigh.

TROOPS CONFIDENT.

Modder River, Dec 23.—The British troops are confident and eager to attack the Boers again. It appears that a Dutch clergyman, at religious services after the battle of Magersfontein, moralized on the close formation of the Highland Brigade, which enabled the Boers to inflict such damage. The preachers, generally, spoke on the theme: "Whom God wishes to destroy he first makes mad."

The trenches were full of the dead, and declares that if the British attack had been pressed the Boers would have yielded. He says that the Boer horses have been taken to Modder River, as water is scarce in Magersfontein.

Stoy is an excursion manager. The three disastrous fires in this city recently, their origins pointing strongly to incendiarism, have greatly excited the people. Recently a building was fired three times in one day in the lower part of the city, and last night shortly before the big fire, the department was called to a residence on Walton Way to a fire plainly incendiary, which was also a second attempt on that building.

CHRISTMAS CASUALTIES.

The papers report an unusual amount of drunkenness, debauchery and crime during the present holiday season. From neary every one of the larger towns in the state come reports of a large number of arrests.

Two homicides in this city have been reported, and a few arrests for drunkenness were made. Below we make a few clippings which show something of what has been going on in other towns:

The number of affrays, fights and cutting scrapes yesterday was perhaps larger than on any previous Christmas. The city physician states that he was wading in blood all day and although a physician of long years' experience, he states that he had enough of it yesterday, enough to make him almost sick. * * *

Sunday and Monday have furnished nearly fifty cases for the police to work up.—Charlotte News.

The following is taken from the Observer:

"It is the universal comment that there was never witnessed in Charlotte such debauchery as characterized Christmas day, and it was a special grief to observe that this extended so far into the ranks of the young boys of the community. Numbers of them, not more than half way through their teens, exhibited themselves openly in various stages of intoxication, and for this cause, if no other, Christmas day, 1899, will long remain a painful memory."

And this from the Fayetteville Observer:

Jim Ward and Tom Brown, colored, were arrested for an affray. The latter was stabbed by Ward in his left side near the heart. It is a very serious wound though not necessarily fatal.

And we might go on clipping. There are reports from Wilmington and Newbern which show that the reeking stuff flowed freely in those cities. The News and Observer says that more drunkenness, rowdyism, etc., marked the day in Raleigh than has been known for years.

While Greensboro has two killings to her discredit, it is stated that the number of arrests for drunkenness is below the average. Certain it is that it is no worse here, in a dispensary town, than in towns where the old system of handling liquor prevails. We state this because some people contend that it is worse now than formerly. There are fewer cases in spite of the dispensary, blind tigers and all the free liquor used by those who would increase the number of drunks for "political purposes."

Since the above was written we have investigated the matter and there have only been seven arrests in this city during the holidays, one for homicide, two for larceny and only FOUR for disorderly conduct.

How's that for a dispenary town vs. barroom towns?

Maine's Dead in Washington.

Washington, Dec. 27—The remains of 151 sailors killed at the time the Maine was destroyed arrived here this morning over the Chesapeake & Ohio railroad in a special train of six cars. They were escorted by a guard of honor composed of twelve men from the battleship Texas, including among them one of the members of the original Maine crew, Terry Shea. The remains were conveyed to Rosslyn, Va., opposite the district line, and there were transferred to wagons belonging to the quartermaster's department which removed them to the burial site in Arlington cemetery. The caskets have been placed in open hospital tents, and the guard of honor will be maintained over them, until they are buried tomorrow.

Mr. Pittman Reported Better.

A telegram received here last night from Charlotte reported Mr. W. L. Pittman, who cut his throat in the Central hotel there early last Saturday morning, as improving. The attending physician says he will recover. Mr. Pittman moved from Winston to Charlotte two years ago and accepted a position as bookkeeper in a bank there. The Observer says that several months ago he began dissipating and the bank officers remonstrated with him a number of times. As he continued to drink he was told that he would have to give up his position. His books and accounts were perfectly straight. There was no trouble of that kind. Friday night Mr. Pittman became very much depressed and began drinking. This is thought to have been the cause of his trying to take his own life. His wife and children are at the home of her father, Mr. J. W. Shepherd, on Cherry street, this city. —Winston Sentinel.

Frequently the difference between an optimist and pessimist is simply that the former has never had dyspepsia.

A WOMAN HANGED.

Murdered Her Mistress for Love of Her Children.

Brandon, Manitoba, Dec. 27—Emily Hilda Blake, a domestic, was hanged here this morning for the murder of Mrs. Lane, her mistress. The execution was private, only a few persons obtaining the privilege of witnessing it.

Miss Blake, who was only twenty-two years old, walked firmly to the scaffold without assistance and was the coolest of the party with the exception of Hangman Ratcliffe. She made no statement. The girl confessed that she committed the crime, saying she did it because she loved Mrs. Lane's children and was jealous of the mother's love. Her trial was very brief as she refused all offers of counsel and pleaded guilty.

DUEL IN THE STREET.

Two Men Dead and a Third Will Probably Die.

Huntsville, Ala., Dec. 27—In a street duel at Deposit today two men were killed and a third probably fatally wounded.

James Harden's throat was cut from ear to ear by his nephew, Jesse Harden. The former is dead. John C. Harden, a brother of the dead man, was seriously cut by Jesse Harden, and as the fight was drawing to a close, Mac Russell discharged a load of buckshot into the abdomen of Jesse Harden causing instant death. All the parties are well known and prominent in position. The cause of the fight is not known.

EPIDEMIC AT THE NORMAL.

Confidence Expressed in Dr McIver and the Faculty.

To the Editor of the Observer:

As my residence is in 1½ miles of the State Normal and Industrial College, I think I have the right to express my opinion in regard to the recent epidemic there.

I am one of the trustees of Guilford College, a school that has been in successful operation since it was founded in 1832, and which is known for its healthfulness, the doctor bill of the entire school averaging not over $20 per year, and I think that the Normal is just as healthfully located.

The horrors of the fever and the sadness of the institution have been pictured sufficiently.

I am personally acquainted with President McIver and the other members of the faculty, and I am sure no better faculty could be procured in the entire south. They are, as I know, deeply interested in the school and have all suffered intensely, as much so as if the entire school had been of their own families. It is hard to realize the trouble they have gone through. They are competent, and are removing every cause that might be thought for the best and that science suggests.

So, in the future, the public may rely on the institution being as healthful as it was prior to the epidemic, or more so.

Knowing what I do about the faculty, I know they will go to their work with renewed energy and greater caution and healthfulness—this the public may be assured of.

NORTH CAROLINA LEADS.

Heads the List in the Building of New Cotton Mills.

Boston, Dec 27—The number of textile mills constructed or contemplated in the United States for the last half of 1899, as reviewed by The American Wool and Cotton Reporter, is 183 against 116 for the first half of the year. This makes a total of 299 mills for the year, against 262 for 1898, and 155 for 1897. The south still leads in the new cotton mill construction, with a gain of 14 mills over the number for the first of the year. The north has shown a greater increase, having an accession of 53 over the 25 reported the first six months in the year.

North Carolina, as usual, leads the list, with a total of 41. Georgia comes second, with a total of 21. Pennsylvania shows 19; South Carolina, 16; Alabama, 16; Massachusetts, 13; New York, 9; Rhode Island, 8; Maine, 9; Mississippi, Tennessee and Virginia, 6 each; Texas, 5; Connecticut, Louisiana and New Jersey, 3 each; Ohio, 3; Illinois, Maryland, Michigan, New Hampshire, New Mexico, North Dakota and Vermont, 1 each.

Glorious News.

Comes from Dr. D. B. Cargile, of Washita, I. T. He writes: "Four bottles of Electric Bitters has cured Mrs. Brewer of scrofula, which had caused her great suffering for years. Terrible sores would break out on her head and face, and the best doctors could give no help: but her cure is complete and her health is excellent." This shows what thousands have proved,—that Electric Bitters is the best blood purifier known. It's the supreme remedy for eczema, tetter, salt rheum, ulcers, boils and running sores. It stimulates liver, kidneys and bowels, expels poisons, helps digestion, builds up the strength. Only 50 cents. Sold by C. E. Holton, druggist. Guaranteed.

The Leyland liner Winifredian, now at Boston, Mass., has been impressed by the British Government to be used as a transport.

A Thousand Tongues

Could not express the rapture of Annie E. Springer, of 1125 Howard st., Philadelphi, Pa., when she found that Dr. King's New Discovery for Consumption had completely cured her of a hacking cough that for many years had made life a burden. All other remedies and doctors could give her no help, but she says of this Royal Cure—"it soon removed the pain in my chest and I can now sleep soundly, something I can scarcely remember doing before. I feel like sounding its praises throughout the Universe." So will every one who tries Dr. Kings' New Discovery for any trouble of the Throat, Chest or Lungs. Price 50c. and $1. Trial bottles free at C. E. Holton's drug store; every bottle guaranteed.

Many a man would be more likely to wake and find himself famous if he didn't sleep so late in the mornings.

"One Minute Cough Cure is the best remedy I ever used for coughs and colds. It is unequalled for whooping cough. Children all like it," writes H. N. Williams, Gentryville, Ind. Never fails. It is the only harmless remedy that gives immediate results. Cures coughs, colds, hoarseness, croup, pneumonia, bronchitis and all throat and lung troubles. Its early use prevents consumption. Howard Gardner.

"He's just written a book on "How to Live on $3 Per Week." "What did he do that for?" "He hoped to make the necessary $3 per week."

A SURE CURE FOR CROUP.

Twenty-five Years' Constant Use Without a Failure.

The first indication of croup is hoarseness, and in a child subject to that disease it may be taken as a sure sign of the approach of an attack. Following this hoarseness is a peculiar rough cough. If Chamberlain's Cough Remedy is given as soon as the child becomes hoarse, or even after the croupy cough appears it will prevent the attack. It is used in many thousands of homes in this broad land and never disappoints the anxious mothers. We have yet to learn of a single instance in which it has not proved effectual. No other preparation can show such a record—twenty-five years' constant use without a failure. For sale by C. E. Holton, druggist.

Son of an Ohio Merchant Cured of Chronic Diarrhoea.

My son has been troubled for years with chronic diarrhoea. Sometime ago I persuaded him to take some of Chamberlain's Colic, Cholera and Diarrhoea Remedy. After using two bottles of the 25-cent size he was cured. I give this testimonial, hoping some one similarly afflicted may read it and be benefited.—Thomas B. Bower, Glencoe, O. For sale by O. E. Robbed the Grave.

A startling incident, of which Mr. John Oliver, of Philadelphia, was the subject, is narrated by him as follows; "I was in a most dreadful condition tion. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides; no appetite—gradually growing weaker day by day. Three physicians had given me up. Fortunately, a friend advised trying Electric Bitters: and to my great joy and surprise, the first bottle made a decided improvement. I continued their use for three weeks and am now a well man. I know they saved my life, and robbed the grave of another victim." No one should fail to try them. Only 50 cents per bottle at C. E. Holton's drug store.

He Fooled the Surgeons.

All doctors told Renick Hamilton, of West Jefferson, Ohio, after suffering 18 months from rectal fistula, he would die unless a costly operation was performed; but he cured himself with five boxes of Bucklen's Arnica Salve, the surest pile cure on earth, and the best salve in the world. 25 cents a box. Sold by C. E. Holton, druggist.

Sue Perstishus—"Goodness! You wouldn't start on a journey on Friday would you?" Miss Schoffer—"I'd start for Europe on thirteen Fridays."

It takes but a minute to overcome a tickling in the throat and to stop a cough by the use of One Minute Cough Cure. This remedy quickly cures all forms of throat and lung troubles, harmless and pleasant to take. It prevents consumption. A famous specific for grippe and its after effects. Howard Gardner.

WAY UP

above every other medicine stands the record of Dr. Pierce's Golden Medical Discovery as a remedy for diseases of the blood, stomach and organs of digestion and nutrition. The claim is made that the "Discovery" will cure ninety-eight persons in every hundred who are suffering from the diseases for which it is prescribed. That claim is based upon the actual record that it has cured ninety-eight per cent. of those who have used it, and the number of these reaches to the hundreds of thousands. Will it cure you? Try it. It is a wonderful medicine and has worked wonderful cures.

PURIFIES THE BLOOD

"About ten years ago I began to have trouble with my stomach," writes Mr. Wm. Connolly, of 535 Walnut St., Lorain, Ohio. "It got so bad that I had to lay off quite often two and three days a week, my stomach would bloat, and I would belch up gas, and was in awful distress at such times. I have been treated by the best doctors in this city but got no help whatever. I wrote to you for advice. You told me that by my symptoms you thought I had liver complaint and advised the use of your 'Golden Medical Discovery' and 'Pleasant Pellets' in connection. These medicines I have taken as directed, and am very happy to state that I commenced to get better from the start and have not lost a day this summer on account of my stomach. I feel tip top and better than I have for ten years."

LUCKY DEUCE OF SPADES.

Remarkable Run of Luck, but All For the Other Man.

One by one the old superstitions are being torn from us. People nowadays walk ostentatiously under ladders and suffer no evil consequences. Friday is quite a popular day for the commencement of a long journey, and sitting down 13 at dinner is frequently unattended with untoward results. A deeply rooted superstition among card players is a belief in the lucky properties of the two of spades. The present writer's faith, however, was severely shaken by a phenomenal coincidence which occurred only a few days ago.

Sitting down to a game of whist, he thoroughly shuffled both packs of cards, and happened to notice that the two of spades was the bottom card of one of the packs.

"This ought to bring me luck," he remarked to his friends.

He then took up the second pack, and was astonished to find that the two of spades was also at the bottom of that. Words failed to express his amazement when, in drawing for partners and deal—the cards had been shuffled again—he once more drew the two of spades.

The odds against this triple event occurring must be enormous, but more was to follow. The deal fell to the writer, and the turn up card was the inevitable two of spades!

After this the dealer felt justified in believing he was in for a good evening. As a matter of fact, he lost six rubbers in succession.—London Mail.

Children and Dolls.

Writing in The Contemporary Review, Professor Sully discusses the curious aspects in which children regard dolls. He says: Professor Hall has brought to light some curious preferences of children. He tells us, for example, that, whereas out of 845 children 191 preferred wax dolls, as many as 144 pronounced in favor of rag ones. Odd preferences are sometimes shown with regard to size. A lady writes me that she preferred 4 inch halfpenny dolls because there was so much more to be done with these in the way of putting on wigs made from doormats, inking in eyebrows, etc. On the other hand, another English lady tells me that her childish ambition was the possession of a big doll—"one that would fill my arms and take some of the cuddling that I wanted to bestow and which nobody seemed to want." This girl image is, so far as the uninitiated adult can divine, the true child's doll.

Coalfields of the World.

Geologists estimate the great coalfields of the world in square miles as follows: China, 200,000; United States, east of the Rockies, 190,000; Canada, 65,000; India, 85,500; New South Wales, 24,000; Russia, 20,000, and the United Kingdom, 11,500. There are many deposits in other countries, but their extent is inconsiderable. England's coal area is small; still she for years produced more than any other country. Now the United States is ahead. English coal veins are thin; one only 14 inches wide has been worked 1,200 feet down. On the other hand, there are veins in the Pennsylvania anthracite region 60 feet thick and in the bituminous regions 18 feet thick. Our Appalachian coalfields are the largest known, and alone could supply the whole world for centuries to come.

BUTLER AS A SCAPE GOAT.

It is Now Found that His Statements Were Correct.

London, Dec. 25—From what is said a storm is brewing on the subject of the government's conduct toward Gen. Sir William Butler; whose conduct at the outset of the war met with much criticism.

General Butler, who commanded at Cape Town previous to the war, sent a series of dispatches warning the government against attacking the Boers, and giving details of their preparation for war, which have been verified were distasteful to the government, which put them away out of sight, and Butler was harshly criticised.

But, it seems, he drew attention to the way in which the English were misled by the blindness of their intelligence department, which, from what has taken place, was easily misled by the Boers as to their arms and numerical strength. It is well known here that agents of the intelligence department were sent from time to time to find what the Boers were doing in the way of armament. The Boers knew all about this, and, with simulated candor, conducted the visitors around forts which they chose for their own purposes, where old guns were set up and shown with an affection of pride by Kruger's men, who were cunning enough to inspire the confidence of the visitors by their plausibility. Thus the British received minute reports of the calibre, range and number of old cannon possessed by the Boers, but were merely gulled.

The real guns with which the war is being conducted, the Creusots and Krupps, were so carefully hidden that scarcely a person outside of the immediate circle of the Pretoria government knew of them. The English government sent out guns equal in caliber to what the agents had been allowed to see. In the same manner it is said that the Boers underestimated their numerical forces and small arms.

All these deceptions, it is stated, were exposed to the home government by General Butler. The result was that he was called a disloyal pro-Boer. Rabid papers called for his degradation, but since the war persons who knew the contents of Butler's dispatches have come forward and asked that they be published. The attention of members of parliament has been called to this. When the Commons assemble in six weeks, demands will be made for the publication of these dispatches. A prominent man said today:

"Is Butler the Dreyfus of this war? He has been made a scapegoat by many, and has he not even been snubbed by the queen? It will be remembered that when the queen visited Bristol he was withdrawn from the position of chief of the western division. He would have been hooted had he appeared. Has he been insulted by the press in order to shield the war office, which believed rather in the intelligence department than the chief of the South African forces?—Baltimore Sun.

TRAGEDY AT THE HILL.

Bully Jones Fatally Wounded by Bob Stroud

Durham, N. C., Dec. 27—From a citizen of Chapel Hill, who was in the city today, we learn of a fatal shooting that occurred in the town last night. Bob Stroud shot Bully Jones, the latter living only about thirty minutes after being shot.

The trouble is said to have originated in the fact that Jones and Stroud's wife had been on terms of intimacy. Our informant says that Stroud had not been arrested up to the time he left there today. It is thought, however, that he has not yet left that town.

Later information says Stroud gave himself up today to the authorities at Chapel Hill.

A LATER ACCOUNT.

Chapel Hill, Dec. 27—Bob Stroud, a negro, shot and killed Bullie Jones, also colored, last night in the edge of town. The shooting grew out of trouble over Stroud's wife. Stroud is a respected negro. Jones was an ex-convict.

Arrested for Shooting.

Chief Scott was notified last night that a shooting took place several days ago in Warnersville, in which Sam Skein was shot in the hip by Grant Wall. The officer at once went out, found Wall and arrested him. He claims the shooting was accidental, while the man who got shot claims it was not. The jury will say how it is.

Large New Boiler.

As was stated in these columns recently the Greensboro Ice and Coal Company are enlarging their plant in this city. They have just purchased from George W. Pritchett, local agent, a 200-horse power boiler, which will soon be installed. Mr. Pritchett has also just sold a lot of machinery to the Southern Bobbin Company, of this city.

ATTEMPTED KILLING.

Alleged That Bob Hanes Wanted to Kill His Wife.

The Telegram is informed that at a dance in Reidsville Tuesday night at the residence of M. G Fitz, Bob Hanes attempted to kill his wife who was dancing with another man.

It is alleged that Hanes and his wife, who is a daughter of Mr. Fitz, have been separated for several months, and that Hanes was watching the dancers through a window and saw that his wife was among the merry throng. Our informant says that Hanes, on seeing this, rushed inside and drawing a pistol, pointed it at his wife's breast and pulled the trigger, but the gun failed to fire.

The man was seized and a further attempt was prevented. A preliminary hearing was had yesterday and Hanes was put under a $500 bond for his appearance at court.

A LITTLE CHILD DIES.

Four-Months-Old Son of Mr. and Mrs. R. W. Murray.

The Telegram deeply sympathizes with Mr. and Mrs. R. W. Murray in the loss they have sustained by the the death of their little four-months-old son, Robert Weatherly Murray, which occurred this morning after an illness of ten days with whooping cough.

The child was not considered dangerously ill until a few hours before his death. He was taken suddenly worse this morning about 5 o'clock and died about 9 o'clock. The funeral services will be conducted from the home, 323 Asheboro street at 11 a. m. tomorrow.

For these fond parents the merry, gladsome ring of Christmas bells has been changed to the sorrowful tones of a funeral knell. They will put away the body of the tender babe, but through an eye of faith they can see a wee face peeping over the battlements of heaven and a fat, chubby hand beckoning them to come to it.

THE HARDWARE THIEF

Has Been Arrested and Will Be Brought Here.

It will be remembered that some months ago the Odell hardware store was robbed of a lot of valuable goods, pistols, knives and other things, and that the thief got away, though some of the goods were recovered in Danville.

Chief Scott went to Winston at noon in response to a message that the thief has been caught, or the man who is supposed to be the thief. His name is Alex Meyers and parties in Danville say they can identify him as the man who disposed of the stolen goods there. Mr. Scott will bring him to Greensboro tonight.

Ever suffer with cold feet? Try a pair of our thick soled, double upper calf lined shoes. People who are wearing them say they are a sure cure for cold feet. Thacker & Brockmann.

Try Vick's Laxative Quinine Tablets, 10c Box. Cures cold in one night.

Decided to try it on all Christmas goods. And, my! the way we have cut and slashed the prices on toys, albums, games, dolls, etc., is a caution. Not a whole price is left in the entire lot.
